Superintendent's Report

To the School Board and Citizens of East Kingston:

I herewith submit my seventh annual report. Your consideration of the following topics is solicited:

OUR OBJECTIVES

Amidst the most trying period in our Nation's history, I make bold to declare our objectives in education. It should be of interest to you that your schools are endeavoring to reach the goals now common to the educational world and that definite progress is being accomplished.

Some of the objectives follow:

1. To perfect the education of the whole child.
2. To create an interest in the child in his in-school and out activities so that he may be a useful citizen all his life.
3. To bring about an interest on the part of parents in the modern program so that better understanding of the school may be had.
4. To release some of the traditional, inefficient methods of instruction so that better methods may result in increased knowledge and power.

Our program deals not only with the mental but as well with the physical and social side of the child. Much individual attention has brought about desirable gains in the mental. Directed and super-

vised group activities in play and dramatizations have attained the results needed for physical and so-

More and more interest in current affairs is being manifested in our children. They are eager and anxious to know the workings of our government and society. Our upper grades promote lively discussions of these topics in almost every school day.

Parents are keen to help and often consult the teachers to know the best ways to help their children. They are ready to cooperate and promote educational welfare. I cannot commend too highly the effectiveness of the Parent and Teacher movement. We hope for still greater emphasis in this respect.

Many subjects formerly conducted as elaborate memory tests have now been succeeded by planned adjustments to fit the individual needs of the child. We have come to realize that every child has a definite need and that not everyone can be pushed through the same "mill."

Each pupil has a certain mental capacity. Our aim is to reach his maximum and not beyond his power of accomplishment.

In attaining these aims and objectives, an enthusiastic and well trained teaching staff is essential. When once obtained, every inducement toward retention should be offered.

THE EDUCATIONAL CRISIS

There is an educational crisis. Thousands of our nation's children are now deprived of even the rudiments of an education. School terms have been shortened from one week to six months in many states and communities. Some schools expect to operate only three months of the year. Teachers' sal-

aries have dropped to new lows—even lower than the minimums allowed to unskilled workers under the codes. Our nation's schools are faced with more children and less money. Never has it been so difficult to meet these demands.

But what has this to do with our local situation? Much, in that modern means of communication have made us a whole rather than a group of separate communities. That which affects one part has a depressing effect upon the rest. We of New Hampshire have been extremely fortunate because we have succeeded in continuing our schools without very severe retrenchments. I hope it may be our ambition to keep our present establishments intact from harmful influences. Further retrenchments may be necessary but let us examine the essentials and make sure that first things come first.

SCHOOL COSTS

The above discussion leads naturally into local costs and some comparisons with those of your neighbors. Please remember that these are offered only in a spirit of helpfulness that you may from them draw your own conclusions. Changes in number of pupils have a decided influence upon the averages, especially in the smaller districts. All the figures used are from the most recent releases of the State Board of Education.

District	No. Elm. Pupils	Per Pupil Cost	State Aid	Net to
		1932-33	Per Pupil	District
Brentwood	120	58.30	19.47	38.83
Danville	85	58.30	19.36	39.16
East Kingston	37	110.90	26.17	84.73
Epping	364	48.70	14.58	34.12
Fremont	110	63.25	12.11	51.14
Kingston	163	68.32	19.56	48.76
Sandown	50	73.65	28.79	44.86
South Hampton	31	117.46	34.90	82.56
(State Median)		75.89		

PERSONNEL

Again it is my privilege to remind you of the retention of the same capable staff of teachers. Successive years of experience mean continuity of progress for your children. The attendance is very commendatory—higher than the state average. I appreciate what this means in parental interest in the schools and their children.

IMPROVEMENTS

The trustees of Brown Academy have recently added a set of books for the use of that school. The teacher and pupils greatly appreciate this addition and have found much of value in their use. It is indeed fortunate for your pupils that they have the opportunity to go to school in this fine building and enjoy the equipment furnished them by the trustees. The Pound School equipment has been kept up to a high grade and represents a full complement of books and materials for the work of that department.

APPRECIATION

Anything which may be done to evaluate the work of the schools might lead to disastrous results. I am deeply grateful to the many parents and citizens who have so faithfully helped in interpreting the schools to the general public. They have given freely of their time and ability. To the School Board and teachers, I would especially be grateful for their cooperative efforts for without them I would not be able to report a successful year, notwithstanding the most restless in recent history.

Respectfully submitted,

HAROLD C. BOWLEY,

Superintendent of Schools.

Feb. 6, 1934.
